

Machine Shop Technician for the Aero-Design Laboratories

Employee Group: United Steelworkers (USW) – Casual and Seasonal

**University of Toronto Institute for Aerospace Studies
Faculty of Applied Science and Engineering**

Job Duties:

The incumbent will supervise students in the machine shop of the Aero-Design Laboratories during their laboratory sessions and other arranged time periods. The duties include providing training sessions to the students about shop safety and operation, overseeing and providing help to the students in the shop at all lab sessions, answering students' questions about manufacturing various parts, looking after the shop organization and cleanliness, and assisting with other tasks as required related to the day-to-day operation of the machine shop.

Qualifications:

Education: College Diploma or equivalent for machine shop operation and manufacturing

Experience: At least 5 years related experience in working in an industrial machine shop

Other:

- Excellent communication skills
- Excellent interpersonal skills, including good listening, and ability to interact with students in a professional manner
- Organizational, planning, and problem-solving skills

Salary: Hourly-based, \$20.00 per hour (including vacation pay)

Start and End Dates: January 16th – April 5th, 2012

Location: Sandford Fleming Building, SF4003, 10 King's College Rd., Toronto, Ontario M5S 3G4

Work hours: Monday, Tuesday, Wednesday, 1-6pm, and some Fridays 2-6pm

Apply to: Dr. M.R. Emami, Coordinator of the Aero-Design Laboratories
